

NBCHT - Mission

The Mission of the NBCHT is to promote the status and credibility of the profession, safeguard the public trust through the establishment and maintenance of competency standards that protect the health and safety of both the client and the operators, and advance uniform standards of practice and ethical conduct for the profession of Colon Hydrotherapy.

NBCHT - Code of Ethics

The National Board for Colon Hydrotherapy (NBCHT) membership recognizes the many and varied approaches to the age-old profession of colon hydrotherapy. Therefore, we subscribe to the following basic tenants regarding our profession and vow to uphold them to the best of our ability to achieve a common, mutual awareness within the colon hydrotherapy field:

The health, welfare, and comfort of our clients is our primary concern. We will treat our clients as we would treat ourselves.

We will obtain a good, basic education in colon hydrotherapy and will continue to enhance our education to maintaining the highest standard of education for this purpose.

We recognize the ever-changing nature of, approach to, and attitude towards health care. We will continue our education accordingly thereby keeping abreast of all new developments and advancements in this field.

We will share our knowledge and awareness with others in the colon hydrotherapy profession.

We recognize the necessity of maintaining a professional relationship with health care practitioners in other fields and of keeping pace with the latest developments in health care.

As a colon hydrotherapist, we will work as our education and training allows and we will not infringe upon other professions we are not qualified to practice.

We honor this profession and promise to uphold these tenets.
If our work in colon hydrotherapy does not uphold this standard of professionalism,
we will leave the profession to those who can.
